Implementation Consultant

Hello,

My attention was immediately drawn to the role of Implementation Consultant at Fast Enterprises, being a team player and having recently graduated from Dev Academy in July I think it would be a great fit for me.

I am an enthusiastic, conscientious, empathetic professional and have all the attributes required to meet the challenges of the role. I thrive in team environments and I'm positive my life experience would be a big asset to the vacancy.

This is an extremely exciting opportunity that I simply had to apply for and would relish to further develop my skills whilst also working in a nurturing team environment.

Here is my final project at Dev Academy.

<https://warmfuzzies-nz.herokuapp.com/>

I feel I can bring important attributes required for the vacancy including:

Communicator, people person, dedication and motivation, team player.

Thank you for considering my application and i look forward to hearing from you

Kind regards Chris Warne
